THE CRY OF "HARD TIMES."

BY J. BOMBER, JR.

Oh! why should mankind be always inclined
To grumble at Fortune, be she ever so kind?
I'll tell you, good people, though I'm no prophet sent,
'Tis because with his lot man is never content.
Though the Fates had decreed him an angel indeed,
He would fret at this goodness, and cry out "In need!"
Blow fair or foul weather—let it blow as it will,
He would cry out "Hard Times!"—unsatisfied still.

"Hard times!" growls the farmer, and hies to his field;
"My cattle are dying, my lands poorly yield!
My wheat it is smutty, my fruit is no where—
I shall die in the poor-house—oh! soon shall be there!
The gods to my calling have proven unkind,
Oh! what shall I do for to "raise up the wind?"
Hear him not, ye good folks, lend no ear to his rhymes,
With his crops all abundant, he'd complain of "Hard times."

"Hard times!" groans the sailor, as he climbs up aloft;
"I sail in rough weather, my grub it is broth!
I'm kicked round by Fortune like wreck in a gale,
For Davy Jone's locker I'm under full sail!
Land-lubbers are living on the fat of the land,
Poor Jack may be starving—you all understand?"
Vast heaving, my hearty! Rejoice o'er your broth,
Remember the "cherub who sits up aloft."

"Hard times!" cries the lawyer, as he folds up his brief.
"We shall rot in prison, should we not find relief;
I mope in my office from morning till night,
In wait for a client, for money is tight!
Pray bring me your causes, I'll try them for naught—
For naught, did I say?—hem! for less than I ought."
Heed him not, ye good people; to his clutches don't run,
When lawyers are liberal, the millennium will come!

"Hard times!" cries the merchant, o'er profit and loss,
"My ships are all foundered, my fortune is dross!"
Ye gods! hold your temper! rather smile in contempt,
The trader would grumble o'er a hundred per cent;
"Hard times!" whines the Mormon; I often foretell
To Yankees hereafter, with the demon in hell:"
Cease croaking, old Brimstone! return to your flip—
"There's many a slip 'twixt the cup and the lip."

"Hard times!" groans the doctor, as he looks at his pills,
"These are sure panaceas for all human ills:
But patients I've none, 'mong the poor or the wealthy,
The profession 'll collapse—'tis lamentably healthy!
Farewell to my calling—adieu to blue-mass,
Like Nebuchednezzar, we'll soon go to grass:"
Hear him not, ye good people; take none of his pills,
The doctor grows fat upon poor human ills.

"Hard times!" cries poor typo; and not without reason;
"The world must have news of the market, in season;
Though I'm "all out of sorts," you must still have the news!"
Oh! heed him, good people, and pay him his dues!
"Hard times!" thou old villain! away from our door,
We have plenty of comforts, why sigh for still more?
Let us banish the monster far away from our shore,
For the heavens are smiling, and the panic is o'er!

Reverses will meet us in the battle of life—
Let us prove ourselves men in the midst of the strife!
Dame Fortune will heed us not the least, we are told,
If we always keep sighing—"she favors the bold."
Come let us be cheerful! Ye timid and brave,
Let us seek for contentment this side of the grave!
Ye minstrels, who charm us with songs of Old Grimes,
Pipe up the gay ditty, of "Away with Hard Times!"

Ye slaves to gay Fashion! what know you or care?
Ye cry out "Hard times" and "I've Nothing to Wear!"
In the midst of great plenty! Oh! lend me your ears,
My song has grown plaintive, and ye have no tears!
Hush! List to that wail from the midst of our land—
'Tis the cry of grim want! See her skeleton hand!
Her wan, wasted figure creeps hungry to bed,
You pity the poor—*do ye furnish them bread?*

Ye gods! in great mercy withhold thy displeasure—
We merit your frowns to be scourged beyond measure!
Man forever is lying, and moaning his woes;
Man forever is sighing—for what? Goodness knows!
Have patience I pray thee! Oh! smile if you can,
And look with compassion on grumbling man!
Search Hades, and Earth, search Heaven, if you can,
You'll search unavailing for a satisfied man!

GO BACK, ROSE;
You're too Little to Come.

BY ELLEN LOUISA CHANDLER.

(This story is one of those pearls we love to place before our readers. We cannot mention the publication in which it first appeared, for some forgetful editor has failed to make the credit due.)

There were three of us—Kate, Annette, and myself—and we were going into the old wood to hunt for strawberries. Oh! it was such a delightful day in June.—The birds sang till the air was fairly vocal with their melody, and all the green trees nodded their heads in approbation. The very brook seemed to have caught the general inspiration, and danced along through the meadows, as if keeping time to a quickstep of the fairies.

Annette Summers and I had been invited to spend the half holidays with our schoolmate Kate Harrington. Deacon Harrington's old-fashioned, brown house, fronted toward the South. Behind it stretched a broad, green meadow, and still farther back was a densely wooded acclivity, famous for flowers and berries in the geography of every child in Ryefield. I used to love to look at Deacon Harrington's old brown house, even in those early days, when I had not a single well defined notion of artistic taste in my curly head. I know now that it combined, to an eminent degree, the elements of the picturesque. The low roof, which sloped backward nearly to the ground, was gray with moss. Ivy crept about the windows, and over the rustic porch had twined climbing roses, along with heavy clusters of trumpet creeper.

There was a rude seat at the doorway, made of the little boughs of the white birch, twisted together in fantastic fashion, and here grandmother Harrington was wont to sit with her gray woolen knitting work. Oh! what a treat we used to think it to spend a half holiday with Kate Harrington.

"I wish I were you, Kate," exclaimed Annette, after we had spent half the long summer afternoon chasing butterflies, and arranging a vegetable baby-house, with hollyhocks for your ladies' parasols, and tea-pots manufactured out of veritable poppy-pods. "I wish I were you, and then I could be happy all day long, with nothing to trouble me."

"You could, could you?" and Kate's cheeks flushed, as she put away from them her heavy bands of black hair. "You think so, and that's all you know about it. I have a thousand things to vex me.—There's Rose, for instance. Mother expects me to be constantly taking care of her, and she's the greatest little torment you ever saw. By the way, girls, let's start after those strawberries in the wood, now she's out of sight for a minute, so she wont tease to go with us!"

We were just about half-way across the meadow, when we heard a sweet voice crying:

"Please, sister Kate; Rose wants to go too."

I turned round, I remember, and thought how beautiful was the little creature coming towards us. She was very unlike her sister Kate. Kate was a brunette, but the little white robed figure tripping across the meadow, had a pale, spiritual face, and long curls of golden hair falling to her tiny waist. There was a flush on her cheek, and a look of eager, besecching interest in her large, blue eyes; and she stretched her dimpled arms toward us, and kept crying in her earnestness:

"Please, girls, wait for Rose.'

A look of vexation crossed Kate's face, and she called out in a tone of extreme irritability:

"Go back, Rose; you're too little to come! Go back! go back!"

Kate always had a way of being minded, and the little one put her fingers to her eyes, and silently turned toward the house. We hurried on in the direction of the wood, without giving a single glance backward. I think Kate's conscience reproached her for her selfishness, and I know my own pleasure was spoiled for the afternoon. We found plenty of strawberries, red and ripe among their bed of leaves. There were little blue-eyed blossoms, too, that kept reminding me of Rosie, and I was not sorry when the sunset shadows lengthened, and we turned to go home.

We had gone down the hill out of the wood and crossed several rods of the meadow-land, when Kate said, in a horse whisper: "See there, girls, what is that white thing by the brook? Do you see it?"

We saw it, and hurried toward it. It was Rose. At first we thought she was dead. Scarcely seemed the faintest breath to steal from her parted lips, and the pulsations of her heart were so weak you could scarcely feel them. She was in a kind of trance-like sleep. It was some time before we succeeded in waking her, and then her limbs seemed chilled and stiffened by the subtile dampness of the meadow-land atmosphere. She could not stand. How many times that afternoon the little darling had begged us to "make a chair" for her, with our hands, and we had answered that we couldn't stop. We made one now. She twined her dimpled arms about our necks, and held on very tight, but she didn't speak, except once, and then she only said, "Ain't I most big enough, sister Kate?"

Mrs. Harrington met us at the door with a wild look of alarm. "Good heavens, Kate!" she exclaimed; "what's the matter with Rose?" And taking her from our arms, she discovered that her clothes were almost saturated with moisture. "Kate, child, why don't you speak? Has Rose been in the water?"

"No, ma'am; but she went into the meadow, and got to sleep, and we found her there sleeping."

Oh, there were anxious hearts in Deacon Harrington's brown house that night.—Very tenderly was the suffering little Rose cradled on her mother's breast, but not once did she speak coherently. Her cheeks burned, and her eyes sparkled with fever; her dimpled arms were tossed above her head, and every little while, between her moans, she would stretch out her hands towards some imaginary object, and say: "Please, sister Kate, isn't Rose most big enough?"

Three days passed—days of incessant watching and weariness—and toward evening little Rose opened her blue eyes, after a restless slumber. She seemed much better, and the mother glanced hopefully up to the kind physician bending over her.

"I *cannot* say she's better, madam.—God knows I wish I could; but Rose must die before midnight!" and the tears stood in glittering drops on the good man's cheeks.

The mother's great grief was not noisy. She quietly lifted her darling from the bed, and sat down with her in her arms. Kate stood by, sobbing as if already the brand of Cain were upon her brow.

"Please, mamma," said the little one at length—"am I big enough to go heaven?"

"Yes, darling," was the tearful answer. "Jesus loves little children."

"And, mamma, do you s'pose he'll forgive me for sitting down in the meadows to watch Katie, when you told me I mustn't stay there?"

"Yes, my pet, the good Saviour will forgive you for anything, if you are only sorry; but Rosie doesn't want to go to heaven, and leave mother, does she?"

"I heard somebody say I must go, when I was asleep, mother; a beautiful lady, with oh! such white, shining wings, and she stretched out her arms to take me, but I didn't go. I woke up just to kiss you and sister once more. P'ease kiss me, Katie. 'Ittle Rose won't never be naughty any more up in heaven, and I'll grow big before you come, Katie, so I can play with you up there!"

There were tears, sighs, a funeral, and a little coffin. The rosebud opened its petals on the bosom of Jesus. The little earth-flower was "big enough for heaven."

Our Creed.

We believe in small farms and thorough cultivation.

We believe that soil loves to eat, as well as its owner, and ought, therefore to be manured.

We believe in large crops which leave the land better than they found it—making the farmer and the farm rich at once.

We believe in going to the bottom of things, and, therefore, in deep plowing, and enough of it. All the better if with a subsoil plow.

We believe that every farm should own a good farmer.

We believe that the best fertilizer of any soil, is a spirit of industry, enterprise and intelligence—without this, lime and gypsum, bones and green manure, marl and guano, will be of little use.

We believe in good fences, good barns, good farm-houses, good stock, good orchards, and children enough to gather the fruit.

We believe in a clean kitchen, a neat wife in it, a spinning-piano, a clean cupboard, a clean dairy, and a clean conscience.

We firmly disbelieve in farmers that will not improve; in farms that grow poorer every year; in starving cattle; in farmers' boys turning into clerks and merchants; in farmers' daughters unwilling to work, and in all farmers ashamed of their vocation, or who drink whiskey till honest people are ashamed of them.—*Henry Ward Beecher.*

INFLUENCE OF THE MOON ON PLANTS.—1. Vines, if pruned when the moon is increasing in light, will shoot out, spread, and grow fast, particularly if done in the second quarter, because, as the light of the moon increases, so does the sap in the tree.

2. Vines, if pruned when the moon is decreasing in light, will not spread nor grow fast, particularly if it be done during the last quarter, because the sap decreases with the light.

3 Timber cut down when the moon is increasing will soon become rotten, particularly if she be in her second quarter.

4. Timber cut down when the moon is decreasing, will last for years, and the more durable it will be if cut down during the last quarter.

5. Peas sown during the moon's increase will bloom to the last, and will be full and rich in flavor; still more certain if sown during the second quarter.

6. Peas sown when the moon is decreasing in light will be just in the opposite condition.

7. The age to which a pomgranate will live depends on the moon's age at the time of planting; it will live just as many years as the moon was days old.

8. Plants and shrubs shoot up and take little root, if planted when the moon is decreasing in light, and in the zodiacal signs, Gemini, Libra, or Aquarius.

9. If planted when in the signs Taurus, Virgo, or Capricornus, they take deep root and do not grow tall.

Lyman Beecher's Courtship.

An eminent divine, who is as well known as he is universally respected, many years since was led to the conclusion that "it is not well for a man to be alone." After considerable pondering he resolved to offer himself in marriage to a certain member of his flock. No sooner was the plan formed than it was put into practice, and getting out his cane, he speedily reached the dwelling of his mistress.

It chanced to be on Monday morning, a day which many New England readers need not be told is better known as washing-day.

Unconscious of the honor that was intended, the lady was standing behind the tub in the back kitchen, with her arms immersed in the suds, busily engaged in occupation, which to say the least of it, is more useful than romantic. There was a loud knock at the door.

"Jane, go to the door, and if it is anybody to see me, tell them I am engaged and cannot see them."

The message was faithfully rehearsed.

"Tell your mistress that I should see her."

Tell him to call this afternoon," said the lady, "and I will see him." But it was unavailing.

"I must see her now," said the minister, tell me where she is."

So saying, he followed the servant into the kitchen, to the great surprise of her mistress.

"Miss———, I have come to the conclusion to marry; will you have me?" was the minister's opening speech.

"Have you!" replied the astonished lady. "This is a singular time to offer yourself. Such an important step should be made a matter of prayer and deliberation."

"Let us pray!" was Mr. B.'s only response, as he knelt down beside the tub, and prayed that a union might be formed which would enchance the happiness of both parties. His prayer was answered and from this union thus singularly formed, has sprang a family remarkable for talent and piety.

TIME.—A singular word is that word called "time"—not unlike the word "Levi," of which, by a change of the letters, several words may be made: "Levi—evil—vile—live." Some plodding genius has discovered, while spending his own time, that the word TIME, when artificially transposed, or metagrammatized, will form the following words: meti, emit, item. And if the aforenamed and its anagarms be placed in the following quadratic position, they will form what may be termed an anagrammatic palindaome:

TIME
ITEM
METI
EMIT

This word TIME is the only word in the English language which can be thus arranged, and the different transpositions thereof are all, at the same time, Latin words. These words in English, as well as Latin; may be read either upwards or downwards. The English words, time, item, meti, and emit (to send forth) are mentioned above; and of the Latin ones —1. Time, signifies fear thou; 2. Item, likewise; 3. Meti, to be measured; Emit, he buys.—*Challen's Mag.*

☞ A nervous man whose life was made miserable by the slattering of two blacksmiths who occupied respective shops in his vicinity, prevailed upon each of them to remove, by the offer of a liberal pecuniary compensation. When the money was paid down, he kindly inquired what neighborhood they intended to remove to. "Why sir," replied Jack, with a grin on his phiz, "Tom Smith moves to my shop, and I move to his!"

FERTILITY OF JUDEA.—The soil in many places is so fertile, that quince trees are often seen, having on them as many as 400 quinces of large size, and vines with not less than 100 bunches of grapes—many of the bunches three feet long, and grapes three and a quarter inches in circumference. Indian corn eleven feet high, and water-melons of 20, 30 and 40 pounds weight.

☞ The latest freak of suicide occurred last Sunday week, near Cumminsville, Ohio, where a German, named Hutoff, got up at five o'clock in the morning, went out and chalked his last will and testament on the cellar door; conveying all his property to his wife, and then cut his throat.

☞ A man came into a printing office to beg a newspaper:

"Because," said he, "we like to read newspapers very much, but our neighbors are all too stingy to take one."

☞ A boy was asked what meekness was? He thought a moment, and said: "Meekness gives smooth answers to rough questions."

☞ After all it is with men as with dinners—the plain and simple ones those we have recourse to the oftenest, and of which we tire the least.

☞ An editor had a bottle of London Dock Gin presented him, and after drinking the whole of it, he wrote a "notice" of it. Here is a good specimen of the article.

"Here's to the ladies and other branches of business (his) in and around town—and especially to the Messiden's Pressage, Monington Washument, etc., all of which may be had cheap at the Buck—Drook—Brook and Duck store of old London Dock Gin, for $2 a year, if payment is delayed until the end of the Atlantic Cable."

GOOD CONSCIENCE.—A good conscience within will be always better to a Christian than health to his navel, and marrow to his bones; it will be an everlasting cordial to his heart; it will be softer to him than a bed of down. A good conscience is the best looking glass of heaven.—*Cruciath.*

DECLINES.—President Buchanan has written a letter to Hon. Wilson M'Candles, of Pittsburgh, which has been published, in which he positively declines being a candidate for re-nonination for the Presidency.

TERRIBLE ACCIDENT.—A terrible accident occurred on the Northern Railroad near Schagticoke, on Tuesday last. The train was passing a bridge when it was precipitated into the creek below from a height of twenty to twenty-five feet. At least thirteen persons are reported killed, and about twenty wounded.

THE UNION.—We have received the first number of a paper bearing the above name, just started in Huntingdon, edited by R. Milton Speer, who gives his readers a long salutatory. The new paper is to support the administration of James Buchanan and the State ticket, the *Globe*, the old Democratic paper of that county, having refused to do either, as it belongs to the Forney wing of the party. The *Union* is printed on the type heretofore used in printing the Shirleysburg *Herald*, which paper is of course defunct.

WAR AND PROVISIONS.—The Harrisburg *Telegraph* of Friday last says: "The peace will bring one blessing with it that will be appreciated here—cheap provisions. The Crops are reported to be abundant, and supplies have been held back for higher prices contingent on a probable continuation of the war, which expectations have been ruined, as will be a good many speculators who indulged in them, by the peace. Flour has declined two dollars per barrel within a few weeks, and several large flour dealers in New York have already failed. Other provisions must follow suit and decline likewise, and we may look forward, to the coming winter, without the slightest foreboding.

IMPORTANT SALE OF RAILROAD STOCK.—Eight hundred thousand dollars worth of the old stock of the Cumberland Valley Railroad, which was owned by citizens of Philadelphia, was sold to the Pennsylvania Railroad Company last week. As every share of this stock has a vote, its new owners will have control of, and will hereafter manage the affairs of the Cumberland Valley, and of course, will require shipping merchants to run their freight cars to Philadelphia on the Pennsylvania Central, instead of the Lebanon Valley as they do at present. It is supposed that new officers will be selected to manage the Cumberland Valley Railroad, and new energy employed in conducting it.

SENATORIAL CONFERENCE.—The Senatorial Conferrees of the Peoples' Party of the Senatorial District composed of Blair, Cambria, and Clearfield counties will meet at Tyrone City, in this county, on Tuesday next, August 9th, to nominate a candidate for State Senator.

Upon the action of the Conferees on this occasion depends the success or defeat of the Peoples' Party in October next. Each county in the district has presented a man for the office, but none of them with that unanimity with which this county has declared for her choice, Col. L. W. Hall, of this place. To go into the canvass with any other man spoken of, than Col. Hall, as the standard bearer of the Peoples' Party, is, we think, equivalent to certain defeat. An attempt has been made to disparage his claims by endeavoring to connect him with one of the institutions of the State which is unpopular in some localities, but it is only the work of envious persons and certainly deserving of no consideration. If the Conferees really desire the success of their party they will nominate the choice of this county by acclamation; and if any man can be elected in this district, by the Peoples Party, that man is Col. Hall. Should he be the nominee, Blair county will do her duty toward electing him.

FARTHER POINT, BELOW QUEBEC, July 29.—The steamship Anglo Saxon, from Liverpool, on the 20th inst., passed this Point to-day, bound for Quebec.

The Anglo Saxon sailed at eleven o'clock on the morning of the 20th.

The papers contain nothing additional in regard to the basis of peace.

The discontent resulting from Napoleon's hasty course was apparently on the increase, particularly in Italy. Napoleon had arrived at St. Cloud.

The Queen of Portugal is dead.

The Vienna correspondent of the *London Times* says the representatives of Austria, France and Sardinia will soon meet at Zurich, to conclude the treaty of peace. There will be no Congress of the great Powers called to ratify the treaty, the Emperors of France and Austria having agreed to settle the difficulty without the intervention of neutral Powers.

The Paris correspondent of the London *Post* says that both of the Emperors are convinced that the basis of peace agreed upon by them is, in many respects, impracticable.

The English journals continue to ridicule the terms of the peace.

The *Post* (Lord Palmerston's organ) attacks the proceedings at Villa Franca with some severity.

The Paris correspondent of the *News* says there is a feeling of disappointment, and even of indignation, among all who took a sincere interest in the object of the war. The Emperor has seriously lowered himself in the opinion of all classes.

GREAT BRITAIN.

In the House of Lords, on the 18th, the debate was confined to the dispatches between England and Prussia in regard to the war.

An important dispatch from Lord John Russell, dated the 22d of June, strongly urging the importance of the neutrality of Russia, had found its way into print, and attracted much attention, both in and out of Parliament.

The announcement of peace is said to have caused signs of commercial improvement in France.

The Paris flour market is dull, and wheat was lower.

The Paris correspondent of the London *Herald* says the greatest activity prevailed all along the French coast.

The channel coast was being fortified, and from Cherbourg to Dunkirk earth batteries were being construcoted at distances of every three thousand yards.

The Paris Pays says the whole Imperial Guard, a division of the Infantry of the Line, and a battalion of Chasseurs, selected from the different corps of the Army of Italy received orders to march immediately for Paris, where they will receive a distinguished reception.

ITALY.

There were strong indications of discontent in some parts of Italy.

Great agitation existed at Florence.

The Provisional Government of Tuscany had issued a proclamation describing the basis of peace as betraying, the fairest hopes that the Tuscan Government participated in, and were not the sentiments of the people, and declaring that Tuscany will not be replaced under the yoke and influence of Austria, against her will and rights.

Le Nord says that a French corps of 40,000 men will remain in Italy until the reorganization of the country, according to the treaty of Villa Franca.

The Piedmontese correspondent of the Daily News says that fresh Piedmontese troops are to Romagna, with Napoleon's consent, to maintain order, and take from the Pope all hope of recovering it by the help of the Swiss guards.

The most important towns of the Roman States had sent a deputation to confer with Garibaldi, in regard to the condition of affairs.

Modena and Parma are said to be in a state of revolt.

The Austrian troops remain in their position, the same as if peace had not been declared.

Orders had been given to some of the French ships-of-war to protect Frenchmen and their property in Tuscany, in case of need.

The Paris correspondent of the *Post* says it has never been intended to support, by the French army, the return of the Grand Duke of Tuscany.

It was reported that Sardinia has recalled its representatives from Tuscany and Modena, and that the provisioned governments of Tuscany and Modena are organizing a force to oppose the return of the Dukes.

Chevalier Pertzi has been sent from Florence to Paris, on a special mission.

The *Times'* correspondent says that the news of the peace produced the greatest exasperation and dejection at Turin.

The Emperor was accused of being a traitor to Italy, and his portraits had to be withdrawn from even the shop windows, to prevent them from being broken.

The reception of the Emperor and King of Sardinia was cold, and there were no "vivas" for the Emperor.

The *Opinione* of Turin manifests dissatisfaction at Venice being allowed to remain in the hands of Austria.

The government of Lombardy had cautioned the editors of the *Press* against using invects against the recent events, and recommends them to assume sentiments of moderation, under pain of suppression.

PRUSSIA.

The Prince Regent had issued an order of the day to the army, expressing satisfaction with the treaty of peace and conclusion of the war.

Gen. Wrangel had been removed from the command of the army which was to have been concentrated on the Rhine.

NAPLES.

Four thousand Swiss troops had left the Neapolitan service, and gone home. The disbanding of many more was expected.

Large bodies of troops were concentrating in Naples.

Election Returns.

KENTUCKY.

LOUISVILLE, August 2.—The following are the Congressmen elected;—1st District, Burnett, Dem.; 2d, Triton, Dem., probably; 3d, Briston, Opposition; 4th, Anderson, Opposition; 5th, Brown, Dem.; 6th, Garrard, Dem., probably; 7th, Mallory, Opposition; 8th, Sumner, Dem., probably; 10th, Stevenson, Dem. The returns indicate the election of Magoffin, Democrat, for Governor, and that the State Legislature by a joint ballot, will have a small Democratic majority.

MISSOURI.

ST. LOUIS, August 2d.—Incomplete returns from the county election yesterday indicate that the Democrats have elected one member of the Legislature, two County Commissioners, and one Clerk. The Republicans have elected the balance of the candidates. The Sunday Reform was carried by a large majority.

SUNDAY IN ST. LOUIS.—People in different sections of the Union appear to have just as different ideas in regard to the observance of the Sabbath as they have on many other questions. For instance, a correspondent of the Utica *Telegraph* writes from St. Louis:—"The chiming of the church-going bells mingles with the clash of music, preceding *Sabbath-School picnics*, (pious teachings,) and in the evening the organ strains blend with music issuing from the public dancing assemblies: and those who throng the houses of worship can, while prayer is being offered up to the throne of grace, hear in strange discord, "all hands round," "swing corners," etc. Great place, that St. Louis!

Perilous Feat.

We find, in one of our exchanges the following account of a perilous feat, performed by Mons. Blondin, at Niagara Falls, a few days since:—

At three o'clock P. M., Mons. Blondin appeared in front of the Falls Hotel. He took a carriage, in which, with his little "buggy" and two gentlemen friends, he rode about the village awhile, and then proceeded to the river side and entered the enclosure. His wife soon came and entered the grounds also.

At a little after four, M. Blondin began a series of interesting performances on shick rope in the groves. These were continued till quarter before five, when he appeared at the end of the rope on the American side, to the great relief of the spectators, who had melted in the sun for two hours.

The rope occupied its former position; M. Blondin was dressed in his former style of body tights. He passed down the cable backwards, carrying his balancing pole. About 200 feet from the embankment he paused, sat down; arose again, proceeding passed a little beyond the centre, paused, sat down. Then holding his hat aloft, Capt. Travis, who was stationed upon the Maid of the Mist, about 300 feet above a point beneath the cable, shot at it with a rifle. It is not known whether he hit the target or not. M. Blondin, arising, passed on; at about 200 feet from the opposite embankment paused, sat down and laid upon the rope. He did not pause again until he had gained solid footing, and was borne with cheers to his carriage. The heat was very oppressive, the thermometer standing at 75 deg. in the shade. The feat was more wonderful since it was performed backwards, and in the short space of 15 minutes, including all stops.

After refreshing himself with his friends, M. Blondin appeared again at the rope at half-past five. But this time he was clad in dark habiliments, with a false face, and very much resembled a monkey. He had his little barrow and balancing pole before him. He proceeded directly across the river, without once halting until he gained land. He had to be more cautious, and consequently slower. The whole time employed was ten minntes.

The wheel-barrow is slender, made mostly of half-inch whitewood and nailed with small brads. The wheel is fifteen inches in dinmeter and at its circumference four inches thick. It is carved out in the centre in the representation of spokes, and is groved upon the circumference surface to the depth of three inches. The axel is of wood, at its end no more than half an inch in dinmeter. The arms of the barrow are four feet long, made of inch board, and are bent upward from the box, to which they are attached at the sides. The box is fourteen inches wide at the top, about three feet long, and at the bottom sixteen inches. The tops of the sides are irregular, sloping toward the centre and the ends. The whole box is made of half-inch stuff, except the ends, which are an inch thick, and nailed with small brads. The whole conveyance would not way more than twenty pounds, and thirty pounds would likely break box, arms or axel.

DREADFUL ACCIDENT.—The Cleveland Plaindealer tells of a fearful accident in Van Amburgh's menagerie. Some of the new keepers commenced to torment the lion. Wishing to hear him roar, the brutes spit tobacco juice in his eyes. This thoroughly maddened him and his phrenzy was terrific. The lion made a tremendous dash against the cage bars—they gave way—he cleared the cage with a bound—and sprung for the affrighted wretch on the pole. In the blindness of his rage, the lion missed the man, striking his own head against the pole and splitting himself from head to tail! It was done as evenly as though he had been sawed by an experienced mechanic. The uproar brought Mr. Van Amburgh to the spot. The emergency required promptness. This was no time for reflection or argument. Seizing the cleaved parts of the lion the great "tamer" clapped them instantly together. They stuck, and the lion was soon restored to consciousness. But imagine Van's agony when he saw that he had put the lion together in the wrong way!—that two of the animals legs were up and the other two down! But the lion got well, and seems to enjoy himself better than ever. When he gets tired of walking on two legs he flops over on the other two. He is said to be a curious looking lion.

☞ At a recent swimming exhibition in Liverpool, Prof. Poulton, of London, went through some wonderful evolutions in swimming and floating illustrative of the dead man, the dying gladiator, and other scientific postulations.—Eighteen summersaults while wholly immersed in the water. The amphibious practitioner closed his performance by eating a cake, drinking a bottle of milk, and smoking a pipe under water, amidst the immense applause of the spectators.

Two prize medals were then contended for by a number of swimmers. The first prize was for the swiftest swimmer. Twelve started in the race, which was won by a Mr. Jennings. The second prize was for diving the greatest distance under water. Two only contested for this prize, in consequence of the well-known abilities of Mr. Atkins, the winner, who dived the immense distance of two hundred and thirty feet; time, one minute eleven seconds.

☞ Mr. W. T. Aymar, a favorite performer in the Louise Wells equestrian troupe, is about making arrangements to do some somersaults at Niagara, which will entirely eclipse M. Blondin's feat of tight-rope walking. He proposes, if Mr. Porter will allow scaffolding to be erected on Goat Island, to turn a somersault down into the water at the foot of the Island, a depth of one hundred and seventy feet from the point where he springs. He choses this place because it is the only one of sufficient depth of water and clear of rocks for him to elight in. The bare contemplating of such a feat, is of a thing actually to be accomplished, stamps Mr. Aymar as one of the boldest public performers the world ever saw. If he takes the daring leap, and lives, he is indubitably the world's champion in his line.

A DELICATE REBUKE.—Mr Webster wrote, after continued provocation, to the editor of a newspaper, who referred to his private affairs, and especially to his not paying his debts. He said substantially: "It is true that I have not always paid my debts punctually, and that I owe money. One cause of this is that I have not pressed those who owe me for payment.—As an instance of this, I enclose your father's note made to me thirty years ago, for money lent him to educate his boys.

☞ The Ohio wheat crop this year is expected to be 5,000,000 bushels more than last year, notwithstanding the frosts last month, which destroyed per estimate, 3,500,000 bushels. Iowa will yield more than an average crop, while Wisconsin yields a better crop this season than ever before, both as to quantity and quality.

☞ Rumored—that the Pike's Peakers managed to deceive Greeley in respect to the richness of some of the diggings he was examining, by *slipping* gold dust into their sluice boxes and washing it out in his presence.

☞ There is a man by the name of Hyde in Cincinnati, who is one hundred and ten years of age, and has been married seven times.

BULL VERSUS LOCOMOTIVE.—An amusing scene, bordering somewhat on the serious, occurred on the Allegheny Valley Railroad, one day last week, some eight miles this side of Kittanning. It appears that a gentleman named Klingensmith, residing in that locality, purchased an animal of the bovine species some weeks ago, that, judging from his subsequent conduct had extraordinarily developed combative and destructive faculties. On the day aforesaid, as the train, bound for Pittsburgh, was creeping at a moderate speed around a curve, near Klingersmith's, the engineer on the lookout for obstructions, observed his bullship some distance ahead, shaking his huge head as if bent on mischief, and bellowing so loud as to drown the neighings of the iron horse itself. The engineer whistled an alarm, hoping to scare the animal from the track, and at the same time lessened the speed of the train. This served but to increase the rage of the animal, and it is altogether probable he construed the shrill shriek of the locomotive into a challenge to fight, for he started with a loud snort to meet the approaching train. As the engine neared him he left the track, and placing himself in a belligerent attitude on the side of the road, made a dash at the baggage car as it was passing, and was knocked *hors du combat* in about three seconds. The animal went at the train with fearful impetuosity, was dragged under, and cut to pieces, and the train come to a sudden stop, by the locomotive and four freight cars being thrown off the track, two of the cars rolling down a high bank to the river. Fortunately no one was hurt, and, though the promptness of Mr. Morley, the efficient Superintendent, a track was laid round the wreck, and the next day's trains passed as usual. The bull was a valuable annimal, highly prized by his owner, and weighed about sixteen hundred pounds.

A YOUNG WOMAN MURDERED IN COLD BLOOD.—Miss Melissa Morris, of Marshall county, Va., was murdered on Saturday last near an orchard where she had been gathering apples. The supposed murderer is a man named Nathaniel Harten. The supposition is that Harten overtook her where she had sat down upon a log to rest, as the handkerchief which contained the apples were found lying on it. That her person had been outraged before she was murdered was also evident. The murder was committed by the side of the public road, from which her body was dragged some twenty or thirty yards by the feet to a small run, in which it was found. The murder was committed by heavy blows of a stone or club about the head and breast. The side of her head was broken and one eye knocked out, besides indications of a number of severe blows upon different parts of her person.

☞ Last Monday night was quite cold in the White Mountain region, and the ice which formed on the top of Mount Washington did not melt during Tuesday.

Dalley's Magical Pain Extractor.

In all diseases inflammation more or less predominates—now to allay inflammation strikes at the root of disease—hence an immediate cure.

DALLEY'S MAGICAL PAIN EXTRACTOR, and nothing else, will allay inflammation at once, and make a certain cure.

DALLEY'S MAGICAL PAIN EXTRACTOR will cure the following among a great catalogue of diseases: Burns, Scalds, Cuts, Chafes, Sore Nipples, Corns, Bunions, Bruises, Sprains, Bites, Poison, Chilblains, Piles, Scrofula, Ulcers, Fever Sores, Felons, Ear Ache, Piles, Sore Eyes, Gout, Swellings, Rheumatism, Scald Head, Salt Rheum, Baldness, Erysipelas, Ringworm, Barbers' Itch, Small Pox, Measles, Rash, &c., &c.

To some it may appear incredulous that so many diseases should be reached by one article; such an idea will vanish when reflection points to the fact, that the salve is a combination of ingredients, each and every one applying a perfect antidote to its opposite disorder.

DALLEY'S MAGICAL PAIN EXTRACTOR In its effects is magical, because the time is so short between disease and a permanent cure; and it is an extractor, as it draws all disease out of the affected part, leaving nature as perfect as before the injury. It is scarcely necessary to say that no house, work-shop, or manufactory should be one moment without it.

No Pain Extractor is genuine unless the box has upon it a steel plate engraving, with the name of Henry Dalley, Manufacturer.

Sold by G. W. Kessler, Altoona; George A. Jacobs, Hollidaysburg; and by all the Druggists and patent medicine dealers throughout the United States and Canadas.

Principal Depot, 165 Chambers street, New York.

EPILEPSY, OR FALLING FITS.

We believe we can not do our readers a more important service, than by again calling their attention to that most remarkable preparation, discovered by Dr. Seth S. Hance, of Baltimore, Md., which possesses the power of alleviating and curing that horrid visitation of man—Epilepsy, or Falling Fits. In commending this preparation to our readers, we do so with a conviction that we are not degrading our columns to puff a common patent medicine, but are placing before them a discovery, which, if fully known, would probably do more to alleviate human suffering, than any invention of modern times. Dr. Hance, in asking us to notice his preparation favorably in our editorial department, has sent us for perusal a number of letters from persons who have used his Pills, and have been cured thereby. All of them speak in the most grateful and eulogistic terms. One great advantage this medicine possesses is the fact, that it can be transported through the mails, thereby affording every one an opportunity of dealing directly with the inventor, and also precluding all possibility of being imposed on by a counterfeit or spurious imitation. Dr. Hance pays the postage on his Pills to any part of the country, and will forward them by return of mail, on the receipt of a remittance. His prices are as follows: One box, $3; two do, $5; twelve do, $24. All orders for the medicine should be addressed to Seth S. Hance, 108 Baltimore street, Baltimore, Md.

NOTICE.—ALL PERSONS KNOWING themselves indebted to the firm of Runyan & Sanford, will please call and settle their accounts without delay, as ample time has been given. In thirty days hereafter, all accounts unsettled will be placed in the hands of a proper person for collection.

Altoona, July 28, 1859.-3t RUNYAN & SANFORD.

The undersigned feels grateful for the patronage heretofore bestowed on the firm and himself by the citizens of Altoona, and expects still to serve the public with all kinds of meat as usual. All persons failing to settle their accounts every thirty days, must not expect longer indulgence. My capital is limited, and long credits will soon place me where others are that have indulged so much credit to their ruin. MARTIN RUNYAN.

HOTEL FOR RENT.—THE HOTEL property situate on Rail Road Street immediately above the Pennsylvania Railroad Ware House, heretofore occupied by Matthias Otto, is offered for rent. It is a good two-story frame building, with nine bed-rooms, a dining room forty feet long, a bar-room, parlor and kitchen.

The house fronts thirty-six feet on Rail Road Street and runs back fifty-eight feet. There is a well of good water, a good stable and all necessary out-buildings on the premises. For further particulars apply to the undersigned, next door to the above property.

LOCAL ITEMS.

CITY COUNCIL OF CINCINNATI.—A short time since the City Council of Philadelphia extended an invitation to the City Council of Cincinnati to visit the Quaker City, which invitation was accepted, and on Monday morning last, the party, numbering some ninety or one hundred persons, including a number of ladies, started on the trip. They arrived in Pittsburgh on Monday night at 9 o'clock, and were received by a committee and escorted to the Monongahela House where a grand supper was served up. They remained in the city until 4 o'clock on Tuesday afternoon, when they embarked on the Fast Line, for this place, at which they were invited to stop over night and take a glimpse of the Alleghenies as they are seen from this point. Information of their intention to stop with us having been generally published throughout the town, arrangements were made to have Van Tries' Cornet Band of Hollidaysburg, and the Altoona Brass Band in readiness to receive them. Shortly previous to the hour for the arrival of the train, the Bands performed several airs in front of the "Logan House," which soon collected a large crowd of people to hail the guests.—Owing to the heavy load of passengers, there being some 260 on board, the train did not reach this place until a few minutes before 10 o'clock. After the arrival of the train, the Bands continued to play, alternately, for half or three-quarters of an hour, until the guests had been seated to partake of an excellent supper prepared for them by those prince of landlords, Messrs. Miller & Rowe, of the "Logan House." A fine collation was also served up to the Bands and a few invited guests. Supper over, a few airs were performed by the Bands, when Van Tries' Band took passage for home on a special train provided for that purpose.

At 5 o'clock next morning, a special train was fitted up for an excursion trip to Gallitzin, to enable all who wished to obtain a sight, in daylight, of the most grand and picturesque sceneries to be found in the country. The greater portion of the party, we think, availed themselves of this courtesy extended by the Penn'a R. R. Co., and they certainly did not regret it. The morning was clear and pleasant, affording a fine opportunity to view the scenery without being discomfitted by heat or cold. The train was stopped at a couple of important points on the route, and the passengers allowed to get out and view the country. All expressed themselves highly delighted with the trip and what they had seen, and we may expect grand accounts of it from a couple of the Cincinnati editors who were in the party. The train returned to Altoona at a quarter before 7 o'clock. Those who did not go up the mountain on the excursion train, employed themselves in inspecting the machine shops of the Company, and other improvements of the town, which they pronounced extensive and handsome. At 8 o'clock the excursionists took passage on the Mail Train, on which they proceeded through to Philadelphia, arriving there at 6 o'clock in the evening. If we may judge from numerous expressions dropped, we should say that the party enjoyed their sojourn in this place exceedingly, and we have no doubt that they will long remember the cordial welcome extended them and the efforts put forth to render their stay agreeable. We doubt whether they will be more agreeably entertained during their trip.

VISITORS.—During the past week we had the pleasure of making the acquaintance of our esteemed cotemporary of the Norristown *Republican*, M. Auge, Esq., who is now on a visit to his friends in this place. Like all knights of the quill, he is an affable gentleman, with whom companionship is agreeable. May his sojourn among the mountains prove as pleasant and beneficial as he could desire.

On Friday morning last, our former townsman, John Morrow, Esq., popped in upon us and gave us a wag of his paw, the more agreeable as we had not seen him for some 12 months The "Smoky City," where he is now engaged in business, appears to agree with him. His future will no doubt be prosperous and his days many and happy—reason why—he left us $1,50 in payment of a year's subscription to the *Tribune*.

Our young friend, Robt. Pitcairns, now of the Pittsburgh, Ft. Wayne and Chicago R. R., spent a few days of last week among his friends in this place, by whom he is highly esteemed and who received him with a hearty welcome. He looks well, evidencing that his western home agrees with him. Rob is a skillful R. R. man, and will yet occupy a higher position than he now does.

U. J. Jones, Esq., the author, punster, poet, and excellent letter writer and local itemizer, paid us a pop visit one day last week. He is now "lying on his oars," in his adopted village "over-the-hill," recuperating his mental and corporeal corporations, after a winter of arduous labor as Legislative Reporter at Harrisburg, engaging sometimes in the delectable amusement of trout-fishing, at which he is an expert, counting his trophies by hundreds instead of dozens. Jones is a "trump," take him as you will.

NEW ARRANGEMENT.—On and after Monday next, the Branch Train between this place and Hollidaysburg will make three trips a day instead of two, as now. The first trip will be made in the morning as at present. The second train will leave Hollidaysburg at 10.10 A. M., arriving at this station at 10,45, where it will be attached to the Local Freight Eastward and proceed to Spruce Creek, from which point it will return with the Local Freight Westward, arriving at this station at 3,25, and at Hollidaysburg at 4.00. The third trip, in the evening, will be the same as at present. This arrangement will be a great accommodation to the local travel along the route of the accommodatein train, the want of which has been seriously felt since the adoption of the last schedule. The "model Conductor" will now have a more extended field of operations in which to "spread" himself, and confirm his right and title to the appellation given him.

WARD'S PATENT.—On the 21st of June last, Mr. A. Ward, of this place, General Foreman of the Car Department of the Penn'a R. R., obtained a patent for an Improved Centre Plate and Car Body Bolster, which, on account of its simplicity, ready adaptation to all cars now used by the various railway companies, and its real merits, must secure its adoption by most of the railroad companies in the country. We can not go into a general description of the patent and the advantages it possesses over all others of the kind ever yet invented, but may notice that it is no complicated contrivance, is easily understood by all familiar with car building, and needs only to be seen to be appreciated. It gives strenth to the car sills and body, because no tenoning or mortising is required; consequently its application to old or new cars adds to their efficacy. The application of the patent to old cars is very easy and the expense small when compared with the increased amount of service the car will thereby be enabled to perform. It is not only a saving in the wear and tear of the car bodies, but is less destructive to the road bed, and has been demonstrated to be a saving of at least 20 per cent. in locomotive power. This latter quality would alone be sufficient to recommend it, if it had no others. From the numerous letters Mr. W. has received from railway men, acknowledging the merits of his improvement, we think it will be universally adopted by railroad companies everywhere. We should be pleased to see Mr. Ward handsomely rewarded for this evidence of his skill and ingenuity.

TEMPERANCE MASS MEETING.—On Wednesday last, the Grand Division of the Sons of Temperance of this State, met in the Altoona Division Room: and in the evening a mass meeting was held in the Methodist E Church. Wm. Nicholson, G. S., was first called upon to address the meeting and responded in a speech of about an hour's length, abounding in sound argument, apt illustrations, humorous anecdotes, cutting sarcasms, and great encouragement to the members of the order to persevere in the good work. The meeting was next addressed by Mr. Baker, of Philadelphia, who directed his remarks more particularly to the young and the duty of those having charge of children to instil into their minds principles of temperance. He related several incidents of the good effects of this early total abstinance education, which appeared to have their weight upon the audience. The closing remarks were made by H. K. Smith, G. W. P., who is a pleasing speaker, and his words are always to the point. We only regretted that the lateness of the hour prevented him from extending his address. What the effect of the numerous temperance addresses, with which we have lately been favored, will ultimately be, time alone can tell. Certainly, we think, some good must come out of them. Should the temperance cause enjoy the same prosperity for the next five years to come that the liquor cause has enjoyed in the last five, a great moral reformation will have been worked, and its fruits may be plainly seen.

FISHER'S GALLERY.—While passing along the street, in Hollidaysburg, a few days since, we were very naturally attracted by the dispay of photographs hung out in front of Fisher's Gallery, and like every body else, we stopped to inspect them. Among the likenesses exhibited were a number with whom we are or were acquainted, and we hesitate not to say that more truthful, life-like profiles could not be taken.—We noticed a large, almost life-size photograph of Dr. Landis, finished in oil, which would do credit to any artist in the country and would be an ornament to any gallery. We noticed also, a photograph, finished in water colors, of Capt. D. H. Hofius, dec'd., which is certainly a master-piece of workmanship and at once proclaims Fisher a prince of artists. We can not enumerate all the countenances and views arranged for the inspection of the public, suffice it to say his gallery is almost as attractive as those of the cities. The fame of Fisher, as an artist, is not confined to this locality. He is known all over the country, and his advice and instruction is much sought after. Understanding as he does every branch of his business, all who call upon him for anything in the line of ambrotypes or photographs may rely upon receiving a correct and durable article.

RUN OFF.—The heavy shower of rain which fell between 5 and 6 o'clock yesterday evening, created such a flood of water in our streets that the sewers and gutters could not contain it, in consequence of which the railroad tracks in front of the "Logan House" were entirely submerged. While they were still partially under water, the Branch Train backed up on the inside track, next the "Logan House," and when nearly opposite the Ticket Office, the passenger car suddenly left the track and made a B line for the Altoona House, in search of dry land. We presume the Superintendent has no objections to the "model conductor" visiting Mr. Woods occasionally, but we should not be surprised if, hereafter, he refuses to let him take his train along with him. The train was soon checked up, and no damage was done other than slightly fracturing one of the trucks. No person was hurt, but several were badly frightened.

SERENADE.—Previous to the arrival of the Fast Line, on Tuesday evening last, Van Tries' Cornet Band honored several of our citizens, our humble self (the Senior) among the number, with a serenade, for which they have the thanks of all so honored. The Band is composed of excellent musicians and as clever a set of fellows as can be found this side of sun-down. So long as such men as brother Traugh, the "model conductor" and funny Alock, are numbered among its members, it will be a popular institution.

BEAUTIFUL SIGHT.—On Tuesday evening of last week, at about half-past eight o'clock, we witnessed a most beautiful sight—the falling of the most brilliant meteor we ever beheld. We observed it first a little west of zenith, passing rapidly in a Southwesterly direction, with a hissing sound similar to that of a sky rocket, only much louder. For perhaps five seconds it lit up the town with a blaze almost equal to noon-day. It left a trail behind it which could be discerned for several minutes after.

A FORGER CAUGHT.—We find the following item in last Saturday's issue of the Harrisburg *Telegraph*. The gentleman named may have been in this place and may be known to some of our citizens, but he does not belong here:—

"Charles Watson, said to hail from Altoona, but had been living at the United States Hotel for the past three months, was apprehended early this morning at his boarding house, Mrs. Updegroves, by officer Becker, on a warrant charging him with forging the names of Messrs. John Brady, and William Keneagy, to orders on Dr. Patterson and Miss Wilson, by which he obtained various goods from their respective stores. On meeting Dr. Patterson this morning he acknowledge his guilt and appeared to be penitent. The boarding house was subsequently searched and nearly all the articles were at once handed over by the wife of the prisoner who was entirely ignorant of the exploits of her husband. She had one dress made of the goods thus obtained, but on ascertaining these facts she refused to wear it and was glad to embrace the first opportunity of restoring them to their lawful owners. The wife is quite young, but recently married at Altoona, where her parents reside, wealthy and respectable. It appears she intends to leave him at once, having been so grossly deceived by him, she refused to recognize him as her husband after the arrest on these charges.

EPISCOPAL CHURCH FAIR.—The ladies connected with the Episcopal Church, in this place, intend holding a Fair in the Library Room of the Altoona Mechanic's Library and Reading Room Association, to open on Tuesday, August 16th, and continue four days, the proceeds of which are to be applied to the liquidation of the debt incurred in the erection of their church. We have not yet seen any of the articles to be placed on exhibition and sale, but presume there are many nice ones, judging from the skillful fair hands engaged in getting them up. We hope to see the Fair liberally patronized by old and young, that the ladies may be suitably rewarded for the time and labor spent in preparing articles and getting it up.

BOY KILLED.—A correspondent of the *Whig* writing from Fredericksburg, in this county, states that on the afternoon of the 20th inst., whilst Mr. Geo. B. Dilling, of that vicinity, was engaged in hauling in hay, he suffered his two little boys to ride the wheel horses while he and another man loaded the wagon. A clap of thunder broke forth suddenly from a small cloud overhead, frightening the horses and causing them to run off. The little fellow who was riding the off-wheel horse was soon thrown, and was so much injured that he expired in a few minutes after being picked up. The other boy remained on the saddle horse and was taken off unhurt when the team was stopped in the barn-yard.

HORSE STOLEN.—We learn from the *Register* that a valuable horse was stolen from the stable of Mr. H. Snively, in Woodberry township, last week. He has not yet been heard from.—Our farmers should be on the alert.

From the same paper we learn that the barn of Mr. Wm. Able, in Juniata township, was destroyed by fire on Sunday morning last, together with all its contents and six large stacks of rye near by it. The barn was full of wheat and hay, and contained his horse gears, &c., all of which is lost, as he had no insurance. His horses were barely saved.

NEW WHEAT FLOUR.—The Steam Mill in this place is now turning out an excellent article of flour from new wheat. We have tried some of it, manufactured from the common red wheat, and find that it makes most excellent bread, although not quite so fair as it will make when a little more dryed. A lot of new white wheat has just been received at the mill, from which a superior quality of flour in now being manufactured.—The fact that the grain of this year will make much better flour, and consequently better bread, will be gratifying intelligence to the good women of the land who have been sorely perplexed of late on account of having bad bread.

COURT PROCEEDINGS.—We clip the following items of Court proceedings, from the *Standard* of this week:—

Com. vs. Otho Harlan—Indictment, poisoning horses. Verdict, guilty. Sentenced to pay a fine of $5, costs of prosecution, and undergo an imprisonment in the county jail for the term of eighteen months.

Com. vs. Abraham Garaher—Indictment, horse stealing, Verdict, guilty. Sentenced to pay a fine of $1, costs of prosecution, and undergo an imprisonment in the Western Penitentiary for eighteen and a half months.

BRANT'S ROW.—The new buildings put up on Brant's lot are now completed, but they are no ornament to the town. On the contrary, they evidence a want of taste, in not suitably improving this, one of the best lots in town, with a good building, the income from which would certainly be equal to that derived from the present unsightly shed row. We hope that it will soon fall into the hands of some of our enterprising citizens, who will remove the present tenements and erect a building which will correspond with those now going up in the immediate vicinity.

MARBLE YARD.—A visit to the marble-yard of Messrs. Freeman & Hoover, Hollidaysburg, will be sufficient to convince any person that their work can not be excelled in the country. We examined a number of specimens, a few days since, and consider the design and finish appropriate and beautiful. Besides doing up their work in a creditable manner, they are clever and obliging gentlemen, with whom there is no trouble in dealing.

GAS AND WATER WORKS.—The work of excavating and walling up the reservoir for the water works and the gasometer and buildings for the gas works, has been allotted to J. M. Campbell, Esq., of this place, who has commenced work thereon, and will push it ahead as fast as possible. We hope to see the works completed by the first of November, and pure water and cheap and safe light circulating throughout the town.

BEING REPAIRED.—Workmen are now engaged in fitting up the Lutheran Church in this place, preparatory to frescoing the walls and ceiling, in consequence of which there were no services in the Church last Sabbath.

ANOTHER LAWYER.—By reference to a card in another column, it will be seen that we are to have another lawyer in our rapidly growing city, in the person of Wm. R. Boyers, Esq., whom we take it, from the slight acquaintance we have with him, is a perfect gentleman. He bears the reputation of being an excellent lawyer. With three, and sometimes four, lawyers in our town, we think that all who go to law hereafter should be able to get justice, provided the lawyers don't so mix up their cases that the belligerents can't tell where they stand themselves.

NATURAL CURIOSITIES.—During the latter part of last week, a *tall* specimen of a Canadian opened a show of natural curiosities, or freaks of nature, in Shultz's Hall. His exhibition consisted of a dog and cat with three legs each, a chicken with three legs, a double calf, a hairy chicken, duck with three legs, and several other articles too numerous to mention, all of which he exhibited for the extremely *low* price of 15 cents. How much he realized over his expenses, we have not been informed, but presume not a great deal, if he took in many counterfeit half dollars.

THE SNAKE MAN.—During the last few days there has been on exhibition, in one of the new rooms put up on the Brant lot, a snake man, considered one of the greatest wonders of the age. His right arm and hand represents the body and head of a snake and his left hand represents the head of a dog with the tail of a snake. For our part we must confess that we find no pleasure in viewing such malformations of the human body although we have no doubt the unfortunate man may make a handsome thing out of it by giving these exhibitions. He has been liberally patronized.

I. O. or R. M. PIC NIC.—The pic nic excursion of Winnebago Tribe I. O. of R. M., to Spruce Creek, on Wednesday of last week, was a grand affair. Two full car loads were in attendance from this place, and they were joined by quite a number on the way and at the place of destination. The day was pleasant and everything passed off harmoniously. Van Tries' Band accompanied the party and "blowed out" muisc in its usual excellent style. The dinner at Col. Haslett's Keystone Hotel is complimented in the highest terms.

ANNUAL JUBILEE.—On Monday last the colored folks of Hollidaysburg held a jubilee somewhere in the neighborhood of that town, in commemoration of the emmancipation of the slaves from the West Indies. Two wagon loads left this place on the morning of that day to join in the festivities of the occasion. Their horses and wagons were decorated with numerous flags, reminding the beholder of the Fourth of July. We presume they had a happy time.

☞ We are not disposed to grumble at the action of the Managers of the County Fair, in having the bills for the Fair printed abroad, because of any benefits which would have resulted to us therefrom, as we presume the bills would have been printed at one of the offices in Hollidaysburg. If the printers of that locality are satisfied that work which might be done at home, should be done abroad, it is no concern of ours.

PLUMBING AND GAS FITTING.—By reference to a card in another column, it will be seen that Geo. A. Oglesby, of Philadelphia, has opened a plumbing and gas fitting establishment in this place. He comes well recommended as an experienced man in his business, and is so jovial and accommodating that it will be a pleasure to deal with him. We hope he may have a fair run of custom.

CONVENTION.—The State Convention of the Junior Sons of America met in Hollidaysburg, yesterday morning. A full delegation is in attendance from most of the Camps in the State, and among them some very good looking young men. They appear determined to transact all business which may be brought before them in that brotherly manner which characterizes the councils of the fraternity.

J. S. of A. PIC NIC.—We acknowledge the receipt of an invitation to attend a pic nic to be given by the Junior Sons of America of Blair County, at Dell Delight grove, on Friday, August 5th. Weather, health and circumstances permitting we shall participate on that occasion, but whether we do or not, we hope they may have a "high old time" of it.

CAMP MEETING.—A camp meeting of Birmingham Circuit will be held on the farm of Mr. Thos. Trout, about four miles from this place, commencing on Friday, August 19th to continue one week. A general invitation has been extended to the members of the Methodist E. Church, of this place to unite in the meeting.

NOTICE.—The third instalment on the Capital Stock of the Altoona Gas and Water Company will be due and made payable at the Banking House of Wm. M. Lloyd & Co., on or before the 16th day of August, 1859.

FIREMEN, ATTENTION!—A regular meeting of the Citizens Fire Company will be held in the Armory of the Logan Rifle Rangers, on Monday evening next. Let every member of the company, and all who wish to join it, be present.

ALTOONA SABBATH SCHOOL ASSOCIATION.—The regular monthly meeting of the above association will be held in the Baptist Church to-morrow (Friday evening,) at 7½ o'clock.

LOCAL CORRESPONDENCE.

HOLLIDAYSBURG, August, 2d, 1859.

MESSRS. EDITORS.—On Monday evening of last week, the body of Col. Hofius (whose death we noticed in our last letter) was conveyed immediately after his demise to the Armory of the Hollidaysburg Fencibles, where it was laid out in military state, to await the arrival of his friends. During Tuesday a large number of our citizens visited the Armory to take a last fond look at a familiar face. His friends came on Wednesday morning, and at their wish it was determined to bury him here, instead of Bedford, his former residence. In the afternoon, his body was conveyed to the Presbyterian Grave Yard, the funeral procession marching in the following order:—

Juniata Rifles,
Emmet Guards,
Fencibles,
Pall Bearers, Hearse, Pall Bearers,
Scott Legion,
Members of the Bar,
Odd Fellows,
Carriages.

On last Sabbath the funeral sermon of the deceased was preached, by Rev. D. X. Junkin, to a large congregation. The Hollidaysburg Fencibles attended in a body-full-uniformed.

The Court proceedings of last week are unimportant—very little business having been transacted. The Court adjourned last week until the October term, when there will be a session of three weeks. An Adjourned or Argument Court will be held in August.

We have been informed that the State Convention of the Junior Sons of America will be held in this place this week, commencing on Wednesday. Quite a number of Camps will be represented, and the deliberations of the Convention will no doubt do much to advance the prosperity of the Order. W.

MARRIED.

On the 27th ult., at the Lutheran Parsonage, by Rev. J. Stock, Mr. GEORGE R. DOUGHERTY, of Altoona, to Miss ELMIRA, daughter of John M. Gibbony, Esq., of Duncansville.

On this occasion the printers came in for a share of the good things provided for the occasion, in return for which all hands join in wishing the donors a calm and peaceful journey down the stream of time and a safe anchorage in the haven of eternal rest.

On the 28th ult., by Rev. Thomas Barnhart, JACOB GETTLEMAN, of Hollidaysburg, to Miss SARAH McMANAMY, of Springfield Furnace.

DIED.

In Williamsburg, on the 19th June, DAVID, son of William and Maria Edesblute, aged about 6 years.

In this place, on the 26th ult., HARRY DANIEL, aged 5 months and 25 days, and on the 27th, JAMES HURST, aged 5 months and 26 days, twin sons of James and Catharine J. McCahan.

They were lovely in life, and in death they were not parted.

BOERHAVE'S
HOLLAND BITTERS

THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER.
Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.
This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave: Because of its great success in the most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medical virtues must be acknowledged.
It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.
CAUTION.—The great popularity of this delightful remedy has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given Boerhave's Holland Bitters a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.

JACOB SNYDER, TAILOR,
The Hero of One Hundred Fits per Month!
I would respectfully set forth my claim to public attention, as a Fashionable Tailor, as follows:

Because I keep an excellent assortment of Cloths, Cassimeres, Vestings and Trimmings, which, when examined, always please.

Because my work is made up in a manner that takes down the country and gives all my customers a city appearance.

Because I am not inferior as a Cutter to the best to be found anywhere.

Because long experience in my business gives me entire control over it, and I am not dependant upon any one to lift me out of the suds.

Because I am still on the sunny side of forty, and therefore my taste as a Cutter and workman unimpaired.

Call on me, in the corner room of the "Brant House." Give me a trial and you will go away pleased.

DR. COGGSWELL'S NEW MEDICAL SALT.
Read the following Certificates to the Efficacy of this Medicine in Inflammatory Diseases.

"For the last twelve years I have been more or less troubled with Inflammatory Rheumatism, commencing early in the Spring, and lasting until cold weather set in, when I would be relieved for a while, only to be attacked again in the Spring. All my joints would swell and be very sore, attended with the most acute pain. My feet, shoulders, arms, and hands troubled me most, so much so that I could scarcely walk, and almost always required assistance in dressing. During this time I would try everything I could hear of, in the hope of finding a cure. I also tried several physicians, but nothing seemed to help me the least in the world. About two and a half years ago I was attacked as usual, and as usual tried everything to get rid of it, but to no purpose. I kept growing worse, and finally had to give up and stay in the house, where I was confined about four weeks. This time my feet swelled, and were so sore that I could not stand on them or get on my boots, and my hands swelled to twice their usual size. In fact, I was, to all appearances and belief, totally used up. About this time my parents, who reside in Maine, sent for me to come home. I went and after my arrival I commenced trying another remedy, hoping to be cured, but resulting the same as all others. For weeks I had not been able to dress myself or to raise my hand to my head, and suffering the most excruciating pain all the time.—One day my father came in with a paper in which was advertised Dr. Coggswell's MEDICAL SALT, for Inflammatory Diseases only, and wanted me to read and see what I thought of it. I read and laughed at it, pronounced it a humbug, and told him that I had been humbugged enough. He kept urging me, and at last said I could but try it, and if I would write to Dr. C., giving him a description of my disease, he would pay the expense. Of course I could not refuse such an offer and sent for one box. It came in due season, but my faith was not increased, and I laughed at the idea of so small a dose doing me any good, and told my wife that I believed Dr. C. and his Salt, both humbugs.—However, I commenced using it and the result was perfectly astonishing. I could hardly realize it myself. I slept soundly all night, which I had not done for a long time, and when I awoke in the morning, strange as it may seem, I was entirely free from pain. I had then taken but one dose, and bathed freely before going to bed. That morning I felt so well that I hardly knew how to contain myself, and went down stairs and told the folks how well I felt, and from that day to this I have not suffered one moment's pain or had an attack of my once dreaded enemy, Rheumatism. I am perfectly well and hearty, and wherever I have a chance I recommend it. A friend of mine, residing in Brooklyn, is now trying it for a bad case of neuralgic rheumatism, and so far it is working admirably.—This is a long story, but I have told all the facts, which I can bring witnesses to substantiate if necessary; and will again say that in the MEDICAL SALT, a sure cure may be found for all inflammatory diseases, and would urge all who are afflicted to give it a trial. GEO. H. DUNCAN,
No. 117 Wall Street, New York.

When it is remembered that the MEDICAL SALT is as efficacious in all other Inflammatory diseases as in Rheumatism, (see descriptive circulars) it will at once be seen that it is a most valuable remedy. Surely those thus afflicted will find in their own condition and in the above statements, enough to induce them to give the MEDICAL SALT a trial.

RED LION HOTEL,
ALTOONA, BLAIR COUNTY, PA.
This old established and popular HOTEL, located nearly opposite the place of stopping the passenger cars in Altoona, has passed into the hands of the present proprietor.—Long experience in the business warrants me in assuring the travelling public that no pains will be spared to render guests as comfortable as possible while sojourning under my roof.

The TABLE will constantly be supplied with the very best the market affords.

The BAR will be found to contain an excellent assortment of LIQUORS of all kinds, including that choice beverage *LAGER BEER.*

The STABLE is in charge of an excellent and experienced Ostler.

The proprietor hopes, by his long experience in the business and the facilities at his command, to make the Red Lion, in all respects, a first class Hotel. The business of the Hotel will be under my own personal supervision. A liberal share of public patronage is kindly solicited.

A CARD.—Hear what Mrs. Vaughn of Duncansville says:—I have used the Galvanic Oil prepared by J. D. Stoneroad, Lewistown, Pa., for a very painful disease myself and recommend it to others, and in every case found it to be one of the very best medicines for sore and painful diseases. Relieves all pain in a few minutes. Every family should have it in the house.

NEW AGRICULTURAL SETTLEMENT.—*To all wanting Farms, a rare opportunity in a delightful and healthy climate 25 miles Southeast of Philadelphia, on the Camden and Atlantic Railroad New Jersey.*

An old estate consisting of several thousands of acres of *productive soil* has been divided into Farms of various sizes to *suit the purchaser*. A population of some *Fifteen Hundred*, from various parts of the Middle States and New England have settled there the past year, improved their places, *and raised excellent crops*. The price of the land is at the *low sum of from $15 to $20 per acre*, the soil is of the best quality for the production of *Wheat, Clover, Corn, Peaches, Grapes and Vegetables.* IT IS CONSIDERED THE BEST FRUIT SOIL IN THE UNION. The place is perfectly secure from frosts—the destructive enemy of the farmer. Crops of grain, grass and fruit are now growing and can be seen. By examining the place itself, a correct judgment can be formed of the productiveness of the land. The terms are made easy to secure the rapid improvement of the land, which is only sold for *actual improvement*. The result has been, that within the past year, some *three hundred houses* have been erected, two mills, one steam, four stores, some forty vinyards and Peach orchards, planted, and a large number of other improvements, making it a desirable and active place of business.

THE MARKET,
as the reader may perceive from its location, is the
BEST IN THE UNION.
Produce bringing double the price than in locations away from the city, and more than double the price than the West. It is known that the earliest and best fruits and vegetables in this latitude come from New Jersey, and are annually exported to the extent of millions.

In locating here, the settler has many advantages. He is within a few hours ride of the great cities of New England and Middle States, he is near his old friends and associations, he is in a *settled country where every improvement of comfort and civilization is at hand.* He can buy every article he wants at the cheapest price, and sell his produce for the highest, (in the West this is reversed,) he has schools for his children, *divine service*, and will enjoy an open winter, and delightful climate, where fevers are utterly unknown. The result of the change upon those from the north, has generally been to restore them to an excellent state of health.

In the way of building and improving, lumber can be obtained at the mills at the rate of $10 to $15 per thousand. Bricks from the brick yard opened in the place, every article can be procured in the place, good carpenters are at hand, and there is no place in the Union where buildings and improvements can be made cheaper.

The reader will at once be struck with the advantages there presented, and ask himself why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct, no one would be invited to examine the land before purchasing. This all are expected to do. They will see land under cultivation, such is the extent of the settlement that they will no doubt, meet persons, from their own neighborhood; they will witness the improvements and can judge the character of the population. If they come with a view to settle, they should come prepared to stay a day or two and be ready to purchase, as locations cannot be held on refusal.

There are two daily trains to Philadelphia, and to all settlers who improve, the Railroad Company gives a Free Ticket for six months, and a half-price Ticket for three years.

THE TOWN OF HAMMONTON.
In connection with the agricultural settlement, a new and thriving town has naturally arisen, *which presents inducements for any kind of business, particularly stores and manufactories. The Shoe business* could be carried on in this place and market to good advantage, also cotton business, and manufactories of *agricultural implements* or *Founderies for casting small articles*. The improvement has been so rapid as to insure a constant and permanent increase of business. Town lots of a good size, we do not sell small ones, as it would effect the improvement of the place, can be had at from $100 and upwards.

The *Hammonton Farmer*, a monthly literary and agricultural sheet, containing full information of Hammonton, can be obtained at 25 cents per annum.

Title indisputable—warrantee deeds given, clear of all incumbrance when money is paid. Route to the land; leave Vine street wharf, Philadelphia for Hammonton by Railroad, at 7½ A. M., or 4½ P. M. Fare 90 cents. When there inquire for Mr. Byrnes. Boarding conveniences on hand. Parties had better stop with Mr. Byrnes, a principal, until they have decided as to purchasing, as he will show them over the land in his carriage, free of expense. Letters and applications can be addressed to Landis & Byrnes, Hammonton P. O., Atlantic Co., New Jersey, or S. B. Coughlin, 202 South Fifth Street, Philadelphia.—Maps and information cheerfully furnished.

THE SECRET INFIRMITIES OF YOUTH AND MATURITY just published Gratis, the 25th Thousand.
A few words on the Rational Treatment, without Medicine, of Spermatorrhœa or Local Weakness, Nocturnal Emissions, Genital and Nervous Debility, Premature Decay of the System, Impotency and Impediments to marriage generally, by B. DE LANEY, M. D.

The important fact that many alarming complaints, originating in the imprudence and solitude of youth, may be easily removed WITHOUT MEDICINE, is in this small tract, clearly demonstrated; and the entirely new and highly successful treatment, as adopted by the Author, fully explained, by means of which every one is enabled to cure HIMSELF perfectly and at the least possible cost, thereby avoiding all the advertised nostrums of the day.

Sent to any address, gratis and post free in a sealed envelope, by remitting (post paid) two postage stamps to Dr. B. DE LANEY, 38 East 31st Street, New York City.

SUFFERING HUMANITY, READ THIS.—The undersigned takes this method of informing the public generally that there is no medicine now offered to the public that is equal to DU VALL'S GALVANIC OIL in relieving suffering humanity.

I was an observer of its effects on a friend of mine, who suffered almost everything from a neuralgic affection which resisted the best medical treatment in Centre county. We applied freely the Galvanic Oil to the painful part, and gave some inwardly, and in 20 minutes the patient was asleep, and when awakened was free from pain and continued so. This is a positive fact which I am willing to make good at any time. A case of Felon was cured in nearly the same length of time. J. H. HAHN.

HOWARD ASSOCIATION, PHILADELPHIA.
A Benevolent Institution, established by special endowment, for the relief of the sick and distressed, afflicted with virulent and Epidemic diseases.

The HOWARD ASSOCIATION, in view of the awful destruction of human life, caused by Sexual Diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their Consulting Surgeon, as a *charitable act* worthy of their name, to open a Dispensary for the treatment of this class of diseases, in all their forms, and to give medical advice *gratis*, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty and suffering, *to furnish medicine free of charge.* It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The directors of the Association, in their Annual Report upon the treatment of Sexual Diseases, express the highest satisfaction with the success which has attended the labors of the Consulting Surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or Self-abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation, or Self-abuse, and other abuses of the sexual organs, by the Consulting Surgeon, will be sent by mail (in a sealed envelope), FREE OF CHARGE, on receipt of TWO STAMPS for postage. Other Reports and Tracts on the nature and treatment of sexual diseases, &c., are constantly being published for gratuitous distribution, and will be sent to the afflicted. Some of the new remedies and methods of treatment discovered during the last year, are of great value.

Address, for Report or Treatment, Dr. GEORGE R. CALHOUN, Consulting Surgeon, Howard Association, No. 2 S. Ninth street, Philadelphia, Pa. By order of the Directors.

GREAT IMPROVEMENT IN COOKING STOVES.
CONSUMPTION OF SMOKE AND GAS AND SAVING OF FUEL.
The subscriber takes pleasure in offering to the public a NEW GAS AND SMOKE CONSUMING Cooking Stove, recently patented, which is destined to supercede all others, as it requires
ONE-THIRD LESS FUEL
than other stoves and is more easily, quickly and regularly heated. No unpleasant smell of gas arises from this stove from the fact that it is all consumed ere it can escape. There is no trouble from smoke as that unpleasant and often annoying exhalation is also consumed inside of the stove. Neither is there any danger of flues or chimneys becoming clogged with soot or the mortar loosened by the gas arising from coal fires.

Persons wishing to purchase stoves are invited to call at the store of the subscriber, in the Masonic Temple, and examine the above stoves. JOHN SHOEMAKER.
Sole Agent for Blair County.

DR. M'LANE'S
CELEBRATED
VERMIFUGE
AND
LIVER PILLS.

WE beg leave to call the attention of the Trade, and more especially the Physicians of the country, to two of the most popular remedies now before the public. We refer to

Dr. Chas. M'Lane's Celebrated
Vermifuge and Liver Pills.

We do not recommend them as universal Cure-alls, but simply for what their name purports, viz.:

THE VERMIFUGE,
For expelling Worms from the human system. It has also been administered with the most satisfactory results to various Animals subject to Worms.

THE LIVER PILLS,
For the cure of LIVER COMPLAINTS, all BILIOUS DERANGEMENTS, SICK HEAD-ACHE, &c. In cases of
FEVER AND AGUE,
preparatory to or after taking Quinine, they almost invariably make a speedy and permanent cure.

As specifics for the above mentioned diseases, they are Unrivaled, and never known to fail when administered in accordance with the directions.

Their unprecedented popularity has induced the proprietors,
FLEMING BROTHERS,
PITTSBURGH, PA.
to dispose of their Drug business, in which they have been successfully engaged for the last Twenty Years, and they will now give their undivided time and attention to their manufacture. And being determined that Dr. M'Lane's Celebrated Vermifuge and Liver Pills shall continue to occupy the high position they now hold among the great remedies of the day, they will continue to spare neither time nor expense in procuring the Best and Purest material, and compound them in the most thorough manner. Address all orders to
FLEMING BROS. Pittsburgh, Pa.

P. S. Dealers and Physicians ordering from others than Fleming Bros., will do well to write their orders distinctly and *take none but Dr. M'Lane's, prepared by Fleming Bros., Pittsburgh, Pa.* To those wishing to give them a trial, we will forward by mail, post paid, to any part of the United States, one box of Pills for twelve three-cent postage stamps, or one vial of Vermifuge for fourteen three-cent stamps. All orders from Canada must be accompanied by twenty cents extra.

For sale, in Altoona, by A. Roush and G. W. Kessler, and by all Druggists. [may 19, '59-1y
